KNOW YOUR RESPONSIBILITY

As a homeowner you own the water service line that brings fresh tap water into your home. You are

responsible for the repair of this line from your service connection with Dakota Dunes CID's water main to either the water meter or the main shut off valve inside your home. Changing soil conditions or simply the age of your service line can cause water service line emergencies.

If your service line bursts, finding help can be difficult and time

consuming. Water service line leaks or breaks can be complicated and expensive to fix, often requiring specialized equipment to locate the leak and repair the line. If it's a difficult repair, you could be without water for a long time.

Dakota Dunes CID is not responsible for repairs. And basic homeowners insurance typically doesn't cover repairs to the exterior water service line. Now you can get optional coverage to protect yourself from the expense of covered repairs to this line, which could amount to thousands of dollars in unforeseen expenses.

Let Exterior Water Service Line Coverage from SLWA protect you from expensive repairs to the line that brings water to your home.

You'll have a 24-hour Emergency Repair Hotline available to you 365 days a year and peace of mind knowing you have coverage in case of a covered emergency.
